### PC Films at the 2021 Swimming Sports

This is the first video for Year 9 PC films. We filmed and produced it together as a group. We all came together and are all very proud of what we made. We are very excited to keep producing videos and working together as a team. We are building on the skills we learned from Year 7 and 8. We have loved being involved with PC films, it has been a great experience and we will keep trying to build our skills to the best of our abilities.

We have learned how to use different cameras and angles. We filmed with slow motion and with the drone to get a bird's eye view to make it interesting for the viewers. We used the go pro to do under water shots.
